

## GRAND TRAVERSE COUNTY ENVIRONMENTAL HEALTH SOIL EROSION & SEDIMENTATION CONTROL PERMIT WAIVER

Part 91 of P.A. 451 and the Grand Traverse County Soil Erosion and Sedimentation Control Ordinance has a specific waiver for projects that are less than 1 acre, within 500 feet of the Waters of the State (WOS), and fall under one of the items listed below:

- Will disturb less than 225 square feet
- Less than 1 acre earth change, within 500 feet of regulated wetland or county drain and upon clear and convincing evidence, will not result in sedimentation of the WOS or county drain
- Will be completed with 24 hours

*A waiver will only be granted if the SESC agent deems the earth change/project will not contribute sediment to Waters of the State or neighboring properties.*

**If your project is found to have contributed to sediment off site or into the waters of the state, or exceeds 225 square feet, this waiver is void and a permit will be required.**

LANDOWNERS NAME: \_\_\_\_\_

PROPERTY ADDRESS: \_\_\_\_\_ CITY, STATE, ZIP: \_\_\_\_\_

MAILING ADDRESS (IF DIFFERENT): \_\_\_\_\_

PHONE: \_\_\_\_\_ EMAIL: \_\_\_\_\_

PARCEL TAX ID: \_\_\_\_\_ TOWNSHIP: \_\_\_\_\_ SECTION: \_\_\_\_\_
